RANK BONUS SYSTEM

Combination of Passive & Active System

- It is necessary to have an active package to get trading profits and bonuses from the Combination of Passive & Active System.
- The maximum return of the package is equal to the same profit/bonus. When you claim the maximum return of your package, it's the end of the package.
- You can choose to reinvest at any time.

Max Return = [Affiliate Bonus] + [Rank Bonus] + [Trading Profit]

You will reach maximum return and profits at a faster rate.

For example, if you buy a \$1000 package, you will get \$1500 by the end of the package.

\$1500 includes the profit from your active affiliate bonus, rank bonus, as well as passive trading profits. It's the end of the package when you reached \$1500. Then you can choose to continue to reinvest.
